MATHEMATICAL REVIEWS, 190 Hope St., Providence 6, R.I.

Subscription: Price \$50 per volume. There will be two volumes in 1963. Checks should be made payable to the AMERICAN MATHEMATICAL SOCIETY. Subscriptions should be addressed to the American Mathematical Society, 190 Hope St., Providence 6, R.I.

The preparation of the reviews appearing in this publication is made possible by support provided by a grant from The National Science Foundation. The publication was initiated with funds granted by the Carnegie Corporation of New York, the Rockefeller Foundation, and the American Philosophical Society held at Philadelphia for Promoting Useful Knowledge. These organizations are not, however, the authors, owners, publishers or proprietors of the publication, and are not to be understood as approving by virtue of their grants any of the statements made or views expressed therein. The comments and opinions expressed in reviews of books and other publications are those of the individual reviewers and do not necessarily represent the views of the Editors or the American Mathematical Society.

Mathematical Reviews will be published in two volumes in 1963; the separation into Parts A and B, which prevailed in Volumes 22-24, will be discontinued. Each volume will consist of six monthly issues, and a separate index issue will be published for each volume. Reviews and pages are numbered consecutively.

Journal references in Mathematical Reviews are given in the following form: *Rückschritte der Math.* (6) 5 (56) (1960/61), no. 2, 18-53 (1962), where, after the abbreviated title, one has: (series number) volume number (volume number in first series, if given) (nominal date), issue number if necessary, first page—last page (imprint date). If only one date is given, this will usually be interpreted as the nominal date and will be printed immediately after the volume number. If no volume number is given, the year will be used in its place. The symbol ★ precedes the title of a book or other non-periodical which is being reviewed as a whole.

References to reviews in Mathematical Reviews before Volume 20 (1959) are by volume and page number, e.g., MR 15, 122; from Volume 20 on, by volume and review number, e.g., MR 20 #4387 or MR 23 #A123. Reviews reprinted from Applied Mechanics Reviews, Computing Reviews, Mathematics of Computation, Operations Research, Referativnyi Zhurnal Matematika (Mehanika, etc.), Science Abstracts, or Zentralblatt für Mathematik are identified in parentheses following the reviewer's name by AMR, CR, MC, OR, RZMat (RZMeh, etc.), SA, Zbl, respectively.
